EDUCATION

2023	●	Bengal Institute of Business Studies PGP Business Analytics & Data Science
2022	●	RCC Institute Of Information Technology Bachelor of Technology in Electrical Engineering 8.34CGPA
2018	●	Sitakundu Vidyayatan W.B.C.H.S.E 60%
2016	●	Baruipur High School W.B.B.S.E 67.71%

WORK EXPERIENCE & INTERNSHIP

- Sumcon Infraventures LLP
- Managed and automated data workflows in Google Sheets and Smartsheet to ensure accuracy and efficiency.
 - Created workflow automations in AppSheet to streamline operations and boost productivity.
 - I work with project, engineering, and procurement teams to understand their needs, analyse project and purchase data, and prepare clear reports, dashboards, and documentation for better decision-making.
 - I help improve workflows by identifying gaps, supporting vendor and procurement analysis, and coordinating with teams to make project tracking, processes, and digital tools more efficient.

PROJECTS

Car Price Prediction using Machine Learning

- Data Cleaning and Exploratory Data Analysis done thoroughly on the fields like Car Name, Number of kilometres Driven, Fuel Type and other relevant parameters before training the model.
- Testing of the model done with the trained dataset.
- Predicting the Price of the Car from the trained data model.

Sales Dashboard using Power BI

- Data Collection from the data source.
- Modifying the data source for data formatting.
- Fitting the data in the graph for data visualization
- Preparing the dashboard with the different charts.

SKILLS

- Data visualisation
- Data Analysis
- Machine Learning
- Data Mining
- RDBMS

TOOLS

- Python
- MySQL
- MS Excel
- Google Sheets
- Smartsheet
- Microsoft Power BI
